Thanks Angeles. I agree, I don't think we should hold public info. I think we should release it, but let the our state counterparts know and be prepared in case the community becomes concerned.

Just let me know after you've heard from Loren and John if needed.

Thanks

This is an interesting question. Do you know what have we done in the past when we are in similar situations? I don't like the idea of holding public info. I can check with the state before we release it if that is the route we will take.

Hi All-

I've been talking to Thelma about whether we could release the HRS score sheet. She said from a legal/confidentiality perspective and the fact that it's from 1991, yes. She said it's up to the program. My concern is that it does show that the site scores high enough to list and I don't want to undermine the state's apparent momentum. I'll leave it up to you all to decide and let me know if I should send.

Thanks.

Nicole

**Subject:** Thank you and a follow-up

Hello All,

I wanted to thank you all for the opportunity to speak with you about TI yesterday. It was a good conversation and I appreciated the time and good thinking on everyone's part. Arc Ecology remains interested in the benefits that might accrue from listing, but I certainly understand and appreciate the quality of the discussion and the reasonable concerns with that strategy.

Ironically, as if to underscore our concern about the City and public engagement, this morning I was alerted by a member of a my Board of Directors that the approval of the new EDC Transfer Agreement will be on the agenda for the Board of Supervisors this coming Tuesday. My Board Member came upon the information accidentally while researching another issue. None of my cohorts involved in Citizens for A Sustainable Treasure Island received any notice. Because the Agreement was already heard in a subcommittee we will be unable to comment on it at the full Board meeting. We now have to research whether the City is in violation of its public notice responsibilities. Sad - to say the least.

As a follow up to our conversation, I would appreciate it if Monica or John could forward me a copy of the original ranking report for TI. I don't have a copy would very much appreciate the opportunity to review it. Secondly I would appreciate it if Loren would forward me the email contact information for everyone at the meeting.

Once again thank you for your time and commitment to meaningful public engagement.
